Clinical Treatments

Chemical Acid Peels \$45-50/*230

Peels are a great way to exfoliate and rejuvenate the skin. By removing the outer most layer of the skin this helps in the disappearance of fine lines, age spots, sun spots, and acne breakouts. This treatment includes a custom plan just for you in order to achieve the maximum potential a chemical peel can offer.

Microdermabrasion  \$55/*300

Using a mechanical exfoliation process to exfoliate dry damaged skin on the dermal layer this helps stimulate collagen and speed up the rate of skin cell renewal. Helps with fine lines, age spots, acne scarring, and the overall texture and health of the skin.

Microdermabrasion/Peel Comb. \$95/*480

This progressive clinical treatment provides deeper penetration into the skin layers to stimulate collagen, minimize and eliminate fine lines, wrinkles, sun spots, age spots, and acne scarring. Strict use of sunblock required.
